

## „SLURRY CLEANING“ ID SURFACE - NEW IN OUR PRODUCT PROGRAM

To reduce mechanical and chemical finishing of your products, we offer not only ground inner surfaces – we now offer an ID Slurry Cleaning process for our tubes.

This process is available for tubes with an ID of 0,30 mm (0,012") up to 9,00 mm (0,350") It is one more option we provide you an removed oxide layer and optimized ID surfaces.

With this additional process it´s possible to reduce your production steps and fabrication costs.

Please contact our project team if you have any questions.

We are ready to demonstrate this capability for with a small sample order for you to evaluate.
